PROFESSIONAL EXPERIENCE

BDS Financial Network | Client Relations Intern

May 2024 - August 2026

- Supported a Financial Advisor managing approximately 250 household client relationships.
- Managed client onboarding, investment account paperwork, retirement documentation, and regulatory forms.
- Created Excel cash reports and organized financial information supporting advisor decisions.
- Scheduled advisor meetings and maintained calendars through Microsoft Outlook.
- Utilized Morningstar and DST Vision while maintaining strict confidentiality.

Jersey Mike's Subs | Shift Leader

November 2022 - August 2026

- Led team members during high-volume shifts while training new employees and strengthening leadership and communication skills.

RELEVANT COURSEWORK

Corporate Finance • Investments • Financial Accounting
SQL Database Construction • Statistical Modeling

PROJECTS

FYIC CLIENT CHALLENGE - 2024

- Collaborated with a team to analyze market opportunities for TeramSmart, utilizing market research and SWOT analysis to deliver data-driven recommendations for business expansion.

BUILDING AN SQL DATABASE - 2026

- Designed and developed a relational database for Spotify in Oracle SQL by creating logical and physical data models, establishing table relationships using primary and foreign keys, and implementing efficient database structures.

FORECASTING KROGER'S FINANCIAL STATEMENTS - 2026

- Collaborated with a team to forecast Kroger's financial performance by developing pro forma financial statements, analyzing key financial ratios, and applying valuation and forecasting techniques to project future growth.

FINANCIAL CASE STUDIES - 2025-2026

- Evaluated finance and accounting case studies by analyzing strategic business decisions, financial performance, and management actions to identify factors that contributed to organizational success or failure.
